

HOME SAFETY INSPECTION PROGRAM

The Monmouth Fire Department is pleased to announce the launch of the new Home Safety Inspection Program! This is a free public service provided to all Monmouth homeowners.

The intent is to do a thorough walkthrough of your home and identify any safety hazards, as well as discuss good safety practices you may already have in place, to ensure the safest environment possible for you and your family.

Some of the safety concerns we look for are well placed and operable smoke detectors, electrical hazards, clear and unobstructed exits, proper heating appliance operation, and much more. None of the recommended changes are mandatory, but are recommended for your safety.

To schedule your free safety inspection or to answer any questions you may have, please contact Lieutenant Mike Mullin at 513-6072. You can also leave a message at the center station at 933-4545 and someone will promptly return your call as soon as possible.
